Aisha Baker's launches Mirror Mirror Collection

26 April 2018

Aisha Baker Jewellery was launched last year, with the desire to capture the youthful wonder of fantastical fairytales. Aisha Baker keeps our imagination moving. Each piece blooms from a story that was born in a wonderland and incorporates hidden meanings and messages in their aesthetic.

Every piece is carved by hand in London, from the heart of human imagination. When luxury purveyor Aisha met celebrated designer Hoonik Chang a vision was shared and the brand was born. Hoonik studied Metal Production Design in South Korea before moving to London to study at Central Saint Martins, where he won Theo Fennell's Overall Best award in 2015 for his BA Jewellery Design Degree Show. He has also received awards from Cartier, Avakian, Swarovski and Folli Follie.
